

Retro-Commissioning Information

As buildings in and around St. Louis begin to reopen, the question on everyone's mind is, "What do I need to do to make sure my building is ready?"

If the equipment in your building has been running in a reduced mode or off during low occupancy, consider Retro-Commissioning you Building Automation System.

Integrated Facility Services' ASHRAE Certified Commissioning experts will conduct a Retro-Commissioning Project which includes:

Calibration & Maintenance Checks

Implement Diagnostic Monitoring

Perform Functional Testing

Benefits of Retro-Commissioning include:

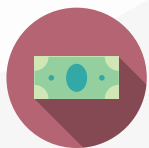

IMPROVED OCCUPANT COMFORT AND HEALTH

Reduced Repair Costs

Increased Energy Efficiency

Lower Utility Bills
